

## Assignment - 7

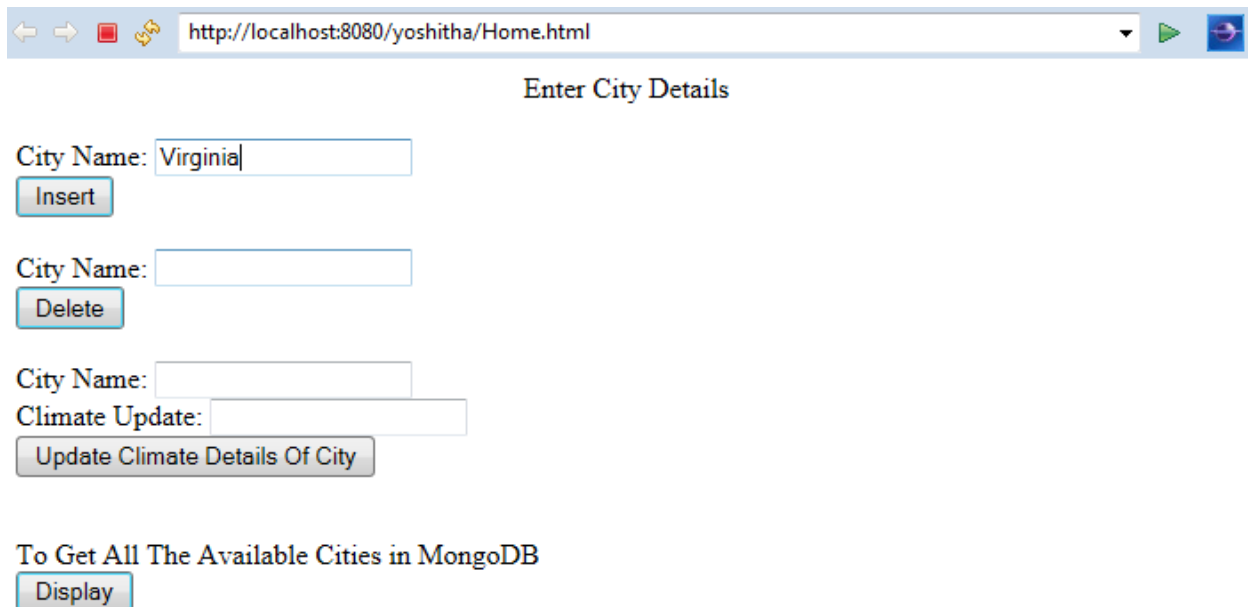

The First Page contains list of Operations that can be performed

A screenshot of a web browser window with the address bar showing `http://localhost:8080/yoshitha/Home.html`. The page title is "Enter City Details". The form contains the following elements:

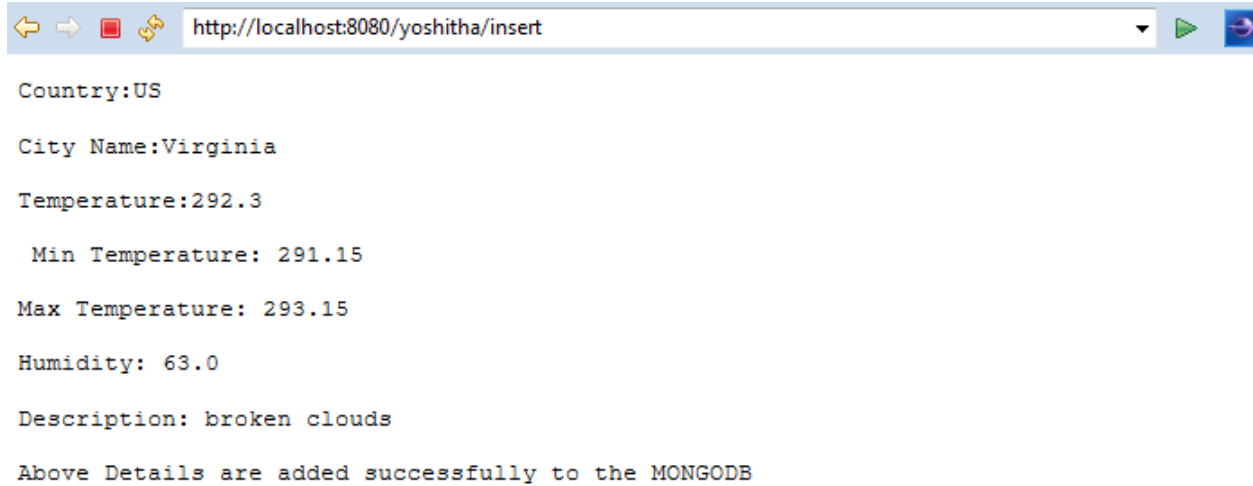

- A text input field labeled "City Name:" followed by an "Insert" button.
- A text input field labeled "City Name:" followed by a "Delete" button.
- A text input field labeled "City Name:" followed by a text input field labeled "Climate Update:" and an "Update Climate Details Of City" button.
- A text input field labeled "To Get All The Available Cities in MongoDB" followed by a "Display" button.

I am Entering Virginia and on clicking inserts the data will be uploaded into the mongoDB

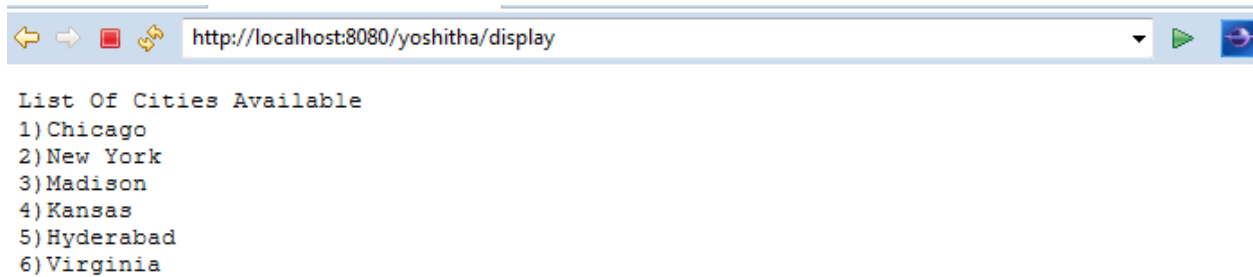

A screenshot of the same web browser window, but now the "City Name:" input field is filled with the text "Virginia". The "Insert" button is highlighted, indicating it has been clicked. The rest of the form remains the same as in the previous screenshot.

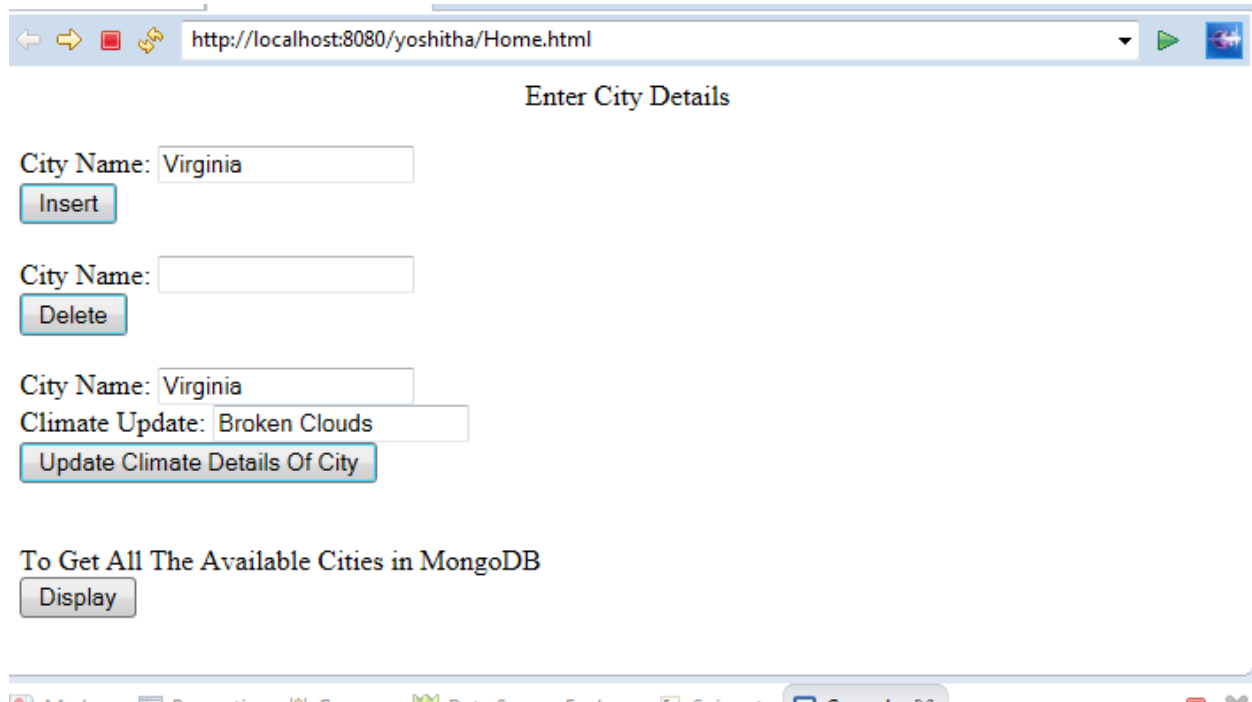

On clicking it will display the below page

On Clicking the Display button it will give all the available cities present in the collection

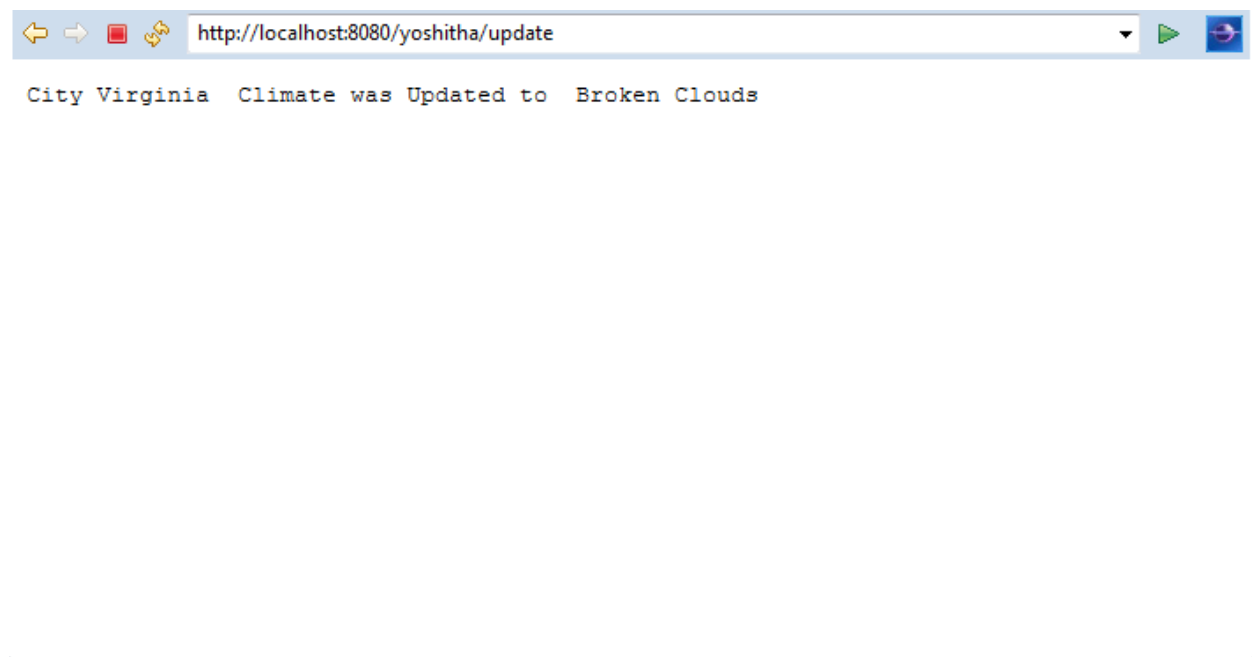

If I want to update the climate of the Virginia I will do the update operation

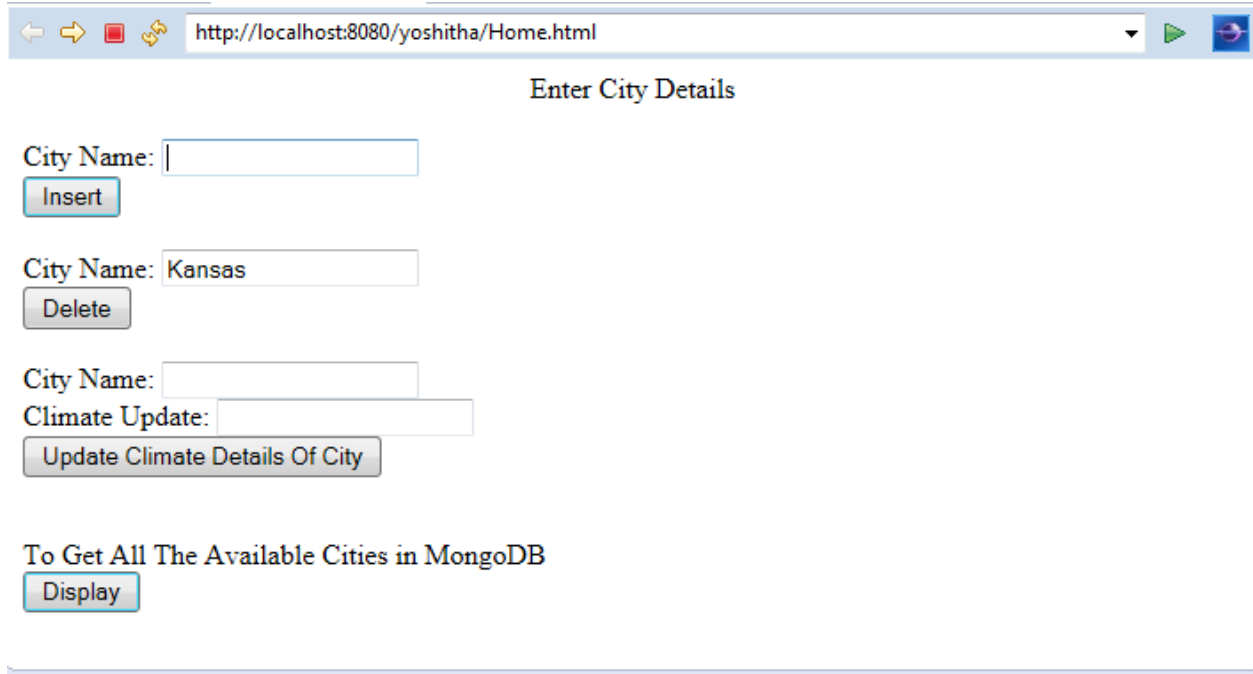

A screenshot of a web browser window displaying a form titled "Enter City Details". The browser's address bar shows the URL "http://localhost:8080/yoshitha/Home.html". The form contains three sections: 1. A text input field with "Virginia" and an "Insert" button. 2. An empty text input field and a "Delete" button. 3. A text input field with "Virginia", a second text input field with "Broken Clouds", and an "Update Climate Details Of City" button. Below these sections is a heading "To Get All The Available Cities in MongoDB" and a "Display" button. The browser's taskbar at the bottom shows several open applications.

The output will be

A screenshot of a web browser window showing the result of an update operation. The address bar displays "http://localhost:8080/yoshitha/update". The main content area shows the text "City Virginia Climate was Updated to Broken Clouds". The browser's taskbar at the bottom shows several open applications.

If I want to delete Kansas details from the DB

http://localhost:8080/yoshitha/Home.html

Enter City Details

City Name:

Insert

City Name:

Delete

City Name:

Climate Update:

Update Climate Details Of City

To Get All The Available Cities in MongoDB

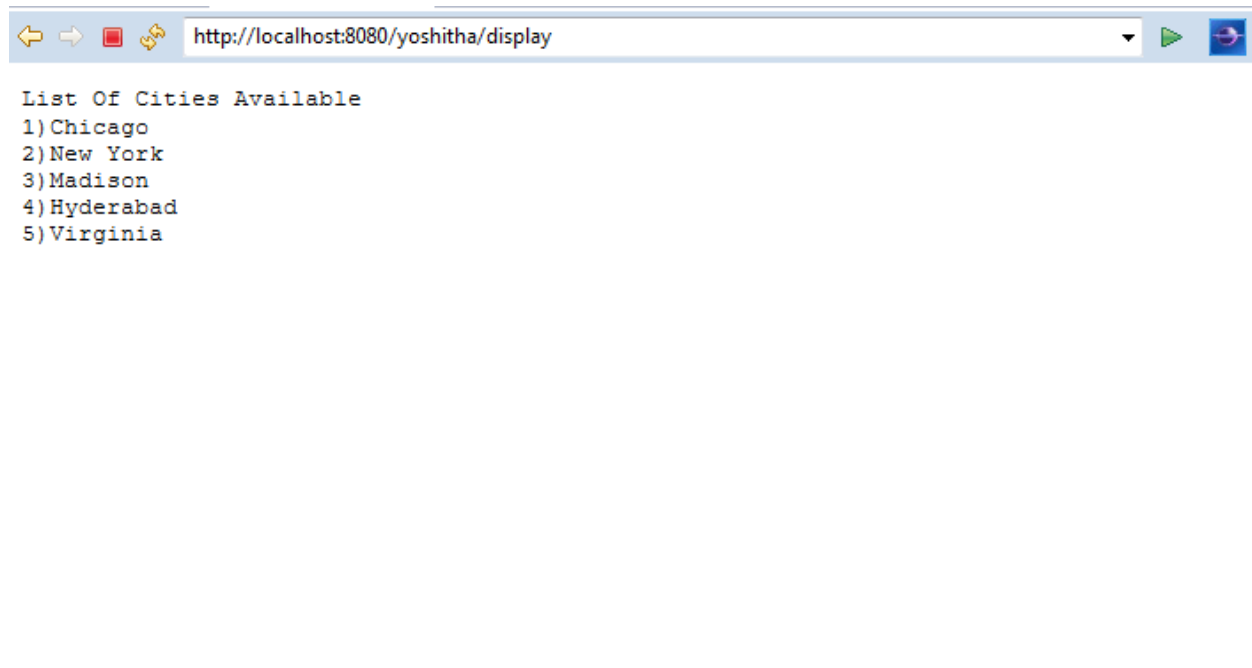

Display

http://localhost:8080/yoshitha/delete

Deleted the Kansas Details

Now if I click on the display button To Get All The Available Cities in MongoDB the Kansas city will not be available

These are the CRUD operations which I have performed.
